

PRESS RELEASE

July 7, 2016

In response to the storm that hit Hastings last night, the City of Hastings' response is as follows:

The City crews will pick up limbs that have broken off terrace trees beginning this morning. The first priority is to clear the streets so that vehicle traffic and emergency services will be available.

The most significant damage seems to be in the East-Central area of the community, so efforts will be focused on that portion of Hastings as a first priority.

The Landfill will allow free disposal of tree limbs through Saturday, July 9, 2016. No commercial tree services, as the cost of Landfill is in their fees.

Citizens should call the City if they have a driveway or street blocked.

Please use one of the following numbers:

Street Department 402-461-2341

Parks and Recreation Dept. 402-461-2324

Engineering Department 402-461-2330
