29-304. Apprentices.

It shall be unlawful for any person to work as an electrician's apprentice without first obtaining an electrician's apprentice certification. Upon payment of the certification fee as set forth in the most recent Council fee resolution to the Development Services Department, and the filing of a written application with the electrical inspector, or his deputy, shall issue to any person over eighteen years of age, and engaged in learning the trade of electrician, an annual apprentice's certificate which shall expire on April 30th after its issuance. Such apprentice's certificate shall not be transferable and shall entitle the holder thereof to act as an electrician's apprentice to a certified electrician. It shall be unlawful for an apprentice electrician to do or perform any act of electrical installation, repair or maintenance without the personal supervision of a certified journeyman or master electrician in actual physical attendance at all times the work is being done or performed; and it shall further be unlawful for any certified journeyman or master electrician employing any apprentice electrician to assign work to be done and performed by the apprentice in violation of the foregoing provisions.

No corporation, firm or partnership shall be allowed more than three apprentice electricians to each master or journeyman electrician employed by the corporation, firm or partnership on any one given job or project.
